

2026 EAA OFFICER ELECTION CANDIDATE STATEMENT

Tiffany Hall

Running for **BoG At Large (1 Seat Available, Term Expires 2029)**

Candidate Statement:

EAA Members:

I am seeking re-election as an At-Large Governor, a position I have held for the past three years. In this role, I have supported EAA's goals and objectives under our Constitution, By-Laws, Board-adopted policies, and Board decisions. If re-elected, I will continue that work while helping ensure that Units without a Unit Governor are properly represented.

Before joining the Board of Governors, I served on the MOU 20 Unit Council, reviewing and evaluating bargaining proposals submitted by members. I also served on the negotiation team for our current contract, gaining firsthand experience in the bargaining process.

During my time on the Board, I have participated in important discussions affecting EAA members, including the proposed Charter Reform language and the City's emergency budget situation, where I successfully helped protect members' jobs.

I developed the guidelines for EAA's Southern California Wildfire Relief Program following the January 2025 fires and serve as Chair of the Wildfire Relief Ad-Hoc Committee. I also serve on the review committee for other member-focused programs, such as the Professional Development Grant program.

For the past two years, I have worked as an EAA Labor Representative, representing members in departments including LAWA, Cultural Affairs, Library, and LADOT. I assist members with workplace concerns, disciplinary matters, contract issues, accommodations, and other employment matters.

I look forward to continuing my service to EAA and contributing to upcoming negotiations and the work ahead.

I hope I can count on your vote!

Thank you.
